PROJECTS

Password-Tracker│**https://github.com/AlexanderBarlow/password-tracker**│**https://password-tracker.herokuapp.com/login**
- *This app allows users to create passwords and keep track of them all in one place. Users can delete and update passwords. The passwords are also encrypted upon storage. Then decrypted upon retrieval with the copy button.*
- *My responsibilities included: Login Page, Signup Page, Password Routes, User Routes, Frontend JS*
- *JavaScript, CSS, HandleBars, Node.js, Express.js, MySQL, Bootstrap, Sequelize, Crypto, Bcrypt, Express-Session*

Disney-Character-Locator│**https://github.com/AlexanderBarlow/disney-character-locator**│ **https://alexanderbarlow.github.io/disney-character-locator/**
- *This app allows users to search Disney characters and have their searches saved for later reference. Each search returns an image, movie appearance, tv appearances, number of park attractions and first film appearance. The application also returns a list of movies and related information to that movie.*
- *My responsibilities included: Fetching of API data and data management, character display logic, combining Disney API with Movie Review API to filter data.*
- *JavaScript, CSS, HTML, Bulma*

EDUCATION

Boot Camp Certificate: *University of Pennsylvania, Philadelphia, PA*

A 12-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS.
